Summary

Senior Software Engineer with over 10 years of experience building secure, scalable mobile solutions across iOS, Android, and Salesforce platforms. Currently leading development at Avaloq, delivering high-performance mobile banking apps with a focus on security and user experience.

Career History

Senior Software Engineer

Nov 2019 - Present at Avaloq Philippines Inc

Developed and optimized secure mobile banking apps for global clients, leading cross-functional collaboration, mentoring new hires, and enhancing app performance and delivery across Europe and APAC.

Mobile Developer

Jun 2015 - Oct 2019 at Cloud Employee

Redesigned and developed mobile apps for international clients, leading UI/UX overhauls, API integrations, and cross-platform feature implementation to enhance usability and app performance.

Senior iOS Developer

Sep 2014 - Jun 2015 at P3ople4u Inc

Developed and enhanced core features of a social gifting app, integrating cross-platform tools like PhoneGap and Telerik while driving UI/UX improvements and aligning tech solutions with business goals.

Mobile Applications Engineer

Jan 2014 - Aug 2014 at [24]7 Inc

Enhanced and maintained real-time chat applications across mobile and desktop platforms, leading front-end feature development and cross-platform optimization using HTML, CSS, JavaScript, and related technologies.

Salesforce/Mobile Developer

Aug 2010 – Nov 2013 at Cloud Sherpas (formerly GlobalOne)

Developed enterprise Salesforce and mobile applications for clients in insurance and healthcare, leading custom solution design, data migration, and innovation in mobile-integrated Salesforce platforms.

Education

Saint Louis University, Baguio

Bachelor's in Information Technology 2010
